WORK EXPERIENCE

- Dates (from – to)
- Name and address of employer
 - Type of business or sector
 - Occupation or position held
- Main activities and responsibilities

APRIL 2025-PRESENT

THE SPATIO, Engineering & Geospatial Consultants, Lahore, Pakistan.

Private Company

GIS Developer

- Performed hydrological modeling and drainage delineation for Naulong watershed.
- Contributed to the development of a public parcel display dashboard for PULSE.
- Developed the Frontend and Database components of the PWASA Smart Utility Dashboard for PWASA authority.

- Dates (from – to)
- Name and address of employer
 - Type of business or sector
 - Occupation or position held
- Main activities and responsibilities

APRIL 2025-JULY 2025

Punjab Information Technology Board (PITB), Arfa Software Technology Park (ASTP), Lahore, Pakistan

Government Company

Machine Learning Intern

- Applied machine learning techniques for crop classification in Punjab using Sentinel-2 imagery.
- Conducted spatial analysis of pilgrimage zones using ArcGIS and Google Earth Engine.
- Processed and analyzed drone imagery for environmental monitoring and assessment.

- Dates (from – to)
- Name and address of employer
 - Type of business or sector
 - Occupation or position held
- Main activities and responsibilities

May 2023-May 2025

Centre for Geographical Information System, University of the Punjab, Lahore, Pakistan.

Government Company

Teacher Assistant (TA)

- Assisted 50+ students in understanding Java and OOP concepts.
- Provided academic support using NetBeans, helping students improve their programming skills.

- Dates (from – to)
- Name and address of employer
 - Type of business or sector
 - Occupation or position held
- Main activities and responsibilities

July 2024-August 2024

World Wide Fund for Nature (WWF) Head Office, Lahore, Pakistan.

International Company

GIS Analyst Intern

- Performed geospatial analysis using Google Earth Engine (GEE) and QGIS.
- Assisted ecological and conservation projects through spatial analysis and data interpretation.

EDUCATION AND TRAINING

- Dates (from – to)
- Name and type of organization providing education and training
- Principal subjects/occupational skills covered
 - Title of qualification awarded
- Level in national classification (if appropriate)
 - Dates (from – to)

MOTHER TONGUE

OTHER LANGUAGES

- Reading skills
- Writing skills
- Verbal skills

SOCIAL SKILLS AND COMPETENCES

ORGANISATIONAL SKILLS AND COMPETENCES

September 2025-May 2027

Centre for Geographical Information System, University of the Punjab, Lahore, Pakistan. Public Sector University.

Remote Sensing, GIS, Spatial Statistics, Geodatabases, Research Methodology

Master of Philosophy in Remote Sensing & Geographic Information System (RS & GIS)

Master's level (18 years education)

September 2021-June 2025

Centre for Geographical Information System, University of the Punjab, Lahore, Pakistan. Public Sector University.

Remote Sensing, GIS, Geostatistics, Spatial Analysis, Web Programming & Databases

Bachelor of Science in Geographic Information System (GIS)

Bachelor's level (16 years education)

August 2019-July 2021

Government Graduate College Township, Lahore, Pakistan. Public Sector College.

Engineering, Mathematics and Physics.

FSc Pre-Engineering

Higher Secondary School Certificate level (12 years education)

March 2017-April 2019

Mubarak Educare System, Lahore, Pakistan. Private School.

Science, Computer and Physics.

Matriculation in Science

Secondary School Certificate level (10 years education)

URDU

ENGLISH

EXCELLENT

EXCELLENT

EXCELLENT

- Strong communication and teamwork skills developed through collaboration in academic and professional GIS projects.
- Experience working in multidisciplinary environments during internships at WWF Pakistan and PITB.
- Ability to assist and guide students effectively as a Teaching Assistant at the University of the Punjab.
- Good presentation and interpersonal skills gained through research, field investigations, and project coordination.
- Successfully managed multiple GIS and remote sensing projects simultaneously during academic and professional work.

TECHNICAL SKILLS AND COMPETENCES	• Experience coordinating geospatial data digitization and dashboard development under the PULSE project. • Strong project planning, task management, and problem-solving abilities developed through research and internship experience. • Ability to work under deadlines and maintain data quality in spatial analysis projects. • GIS & Remote Sensing: ArcGIS Pro, QGIS, Google Earth Engine (GEE), ERDAS Imagine. • Programming & Development: Python, JavaScript, React. • Web GIS & Dashboards: Spatial web application development, frontend development, database integration. • Spatial Analysis: Hydrological modeling, watershed delineation, groundwater analysis, landslide susceptibility mapping. • Machine Learning & AI: Crop classification using Sentinel-2 imagery, geospatial machine learning techniques. • Database Management: Spatial databases, PostgreSQL(PostGIS) • Other Tools: VS Code, GitHub, Microsoft Office Suite
ARTISTIC SKILLS AND COMPETENCES	• Interested in graphic design, map layout design, and spatial visualization developed through GIS cartography and dashboard development. • Experience creating professional maps, presentations, and geospatial visualizations for academic and professional projects. • Good technical writing and research documentation skills developed through research publications and thesis work. • Creative problem-solving and analytical thinking abilities enhanced through web GIS and frontend development projects.
OTHER SKILLS AND COMPETENCES	• Quick learner with the ability to adapt to new technologies and software environments. • Strong analytical and critical thinking skills developed through research and machine learning projects. • Experience in frontend web development using React and JavaScript. • Ability to work independently as well as collaboratively in team-based environments. • Field investigation and data collection experience during environmental and spatial analysis projects. • Time management and multitasking abilities gained through handling academic, teaching, and professional responsibilities simultaneously. • Basic knowledge of software development workflows, database handling, and debugging techniques.
